

Call for Paper (Volume 1 – January 2023)

The first Volume (Vol. 1, Issue 01) of the peer-reviewed online journal entitled “African Journal of Energetics and Environment (AJEE)” publishing biannual full-length state-of-the-art research papers, reviews, case studies related to all areas and all fields of energy and environment research, is going to be launched in January 2023. The Journal AJEE welcomes original research papers, reviews and short communications. Papers, which have high scientific and technological merit, impart important new knowledge and are of high interest to the international community, will be published.

The journal presents an innovative platform for researchers, students, practitioners, and educators to both learn from and contribute to the field. All articles are subject to initial Editor screening and then a rigorous double-blind peer-review process before publication.

What subjects are taken into consideration?

A hybrid (open & subscribed) access journal publishing innovative papers in Energetics and Environment. Types of article include research articles, review articles, novel applications, theoretical analysis and technologies, and Editorials covering areas including renewable energy, energy storage, efficiency improvement, water management, environment pollution, energy conservation and sustainability, policy issues and education for sustainable environment and finance.

The topics considered specifically include:

- Renewable Energy, conventional energy, smart-grid, energy conversion, wind power, hydropower, solar energy, biomass and waste-to-energy, biofuel, geothermal energy, wave energy (ocean), tidal energy, hydrogen & Fuel Cells, Li-ion Batteries, capacitors
- Environmental engineering, water engineering, pollution, gas emission analysis, water desalination
- Energy policy, energy and sustainable development, energy management,
- Control techniques for energy systems, grid-interactive systems used in hybrid energy systems, performance analysis
- Energy Systems, hybrid energy systems, transport, energy policy and sustainability.

Benefits of publishing papers on the website of African Journal of Energetics and Environment:

- Your papers are safe with us; we do not let others take the credit from your papers.
- The certification of the paper publishing can be easily taken into account, with the help of digital certificates that can be easily availed from the site.
- Submission of work, papers, thesis and journals on the site of AJEE: scientific research Journal, make it a standard set that your paper is originally written, thus discriminating the very often practice of Plagiarism.

e-ISSN : 2958-9880

AJEE currently indexing and features:

The African Journal of Energetics and Environment is currently in its launching issue. It will be applied to all relevant abstract and citation databases as soon as it is eligible.

Digital Object Identifier (DOI) submission by CrossRef

Digital Archiving by **Lavel**

Meta Data submission to CrossRef

Meta Data submission to Google Scholar

Print and Online ISSN on each article

Meta Data submission to Academia.edu

Meta Data submission to Research Gate

Article publish in PDF and HTML Format Galley

I hope you will consider contributing to this first volume. To submit your work, [please click here](#). Should you have any questions, please do not hesitate to get in touch with me. If you are not able to contribute at this time, I would be most grateful if you would share the details of this first volume with your peers, or recommend someone from your network to us.

All submissions should be prepared in accordance with the AJEE Author Guidelines.

Important Info:

Last Date of article submission: until 30th of November 2022

Acceptance Notification: within four (04) Weeks.

Publication online: within 24 hours after submit all necessary documentation for publication

Submit your valuable work: [Submit Now](#)

With Regards

Editor-in-chief,

African Journal of Energetics and Environment (AJEE)
