About the Journal Pratiques, Innovations & Technologies (PIT)

The Journal [Pratiques, Innovations & Technologies](https://www.edlk.org/journal/PIT) (PIT), ISSN: 2958-0056, e-ISSN: 2958-0064, is a peer-reviewed international journal published twice a year and edited by [EDLK](https://www.edlk.org/).

PIT is a Cameroonian multidisciplinary academic journal devoted to the dissemination of knowledge related to practice, innovation and technology, with an interdisciplinary approach in the field of applied sciences. Within this framework, it can be considered as a mirror of the research activities not only of lecturers and researchers, but also of the various members of the national and international scientific community.

The fields of research concern all aspects of practice, innovation and technology. With the exception of disciplines related to medicine.

The publication of technical articles with an applied focus is highly encouraged. These include technical articles presenting innovative and practical research (applications, new protocols, algorithms ...); review articles covering a subfield of applied science and presenting an interesting and plausible scientific opinion; doctoral articles describing a recent 2-page doctoral dissertation; and student articles describing a technical protocol. Draft papers and extended versions of papers presented at conferences may be submitted for possible publication in the journal.

Articles are written in English or French, with abstracts in both languages.

Each issue of a volume of PIT, edited by internationally renowned researchers and experts in the field, will present pages of timely and in-depth research on an important topic of interest to its readership of academics, researchers, policy makers, and professionals.

Important Info:

Last Date of article submission: until 05th of December 2022

Acceptance Notification: within 20-30 days
